

s and sh

Grandad says to the children "Shush the baby is sleeping".

Words for tutor and student

In the dialogue the teacher/ tutor says the word at tutor and the student says the word at student, the word is repeated four times. You can start to do this quickly and it can be very funny. You can also swap places. The student can say the tutor's dialogue and the tutor can say the student's dialogue. Enjoy! This method can be used with other sounds you wish to practise.

Tutor: he

Student: she

Tutor: he
